MANAGING CASES

SORTING

When you login to the Doctor Portal, you will be taken to the **CASES** tab. Cases are automatically sorted by patient last name. You can sort by Patient, Order Date, or Status by clicking on the arrow in the sort field.

Using the **CASES** tab, you are able to:

- View case status
- Search case history
- View the case invoice
- Upload files/images to a case
- Track a UPS case sent from the lab

The screenshot shows the 'Manage Cases' interface. At the top, there are tabs for 'Cases', 'Billing', and 'User Setup'. The 'Cases' tab is active. In the top right corner, there is a user profile section with the name 'TJ' and links for 'Sign Out' and 'Change Password'. Below the tabs, the text 'Atlanta Based Systems Inc.' is displayed. The main heading is 'Manage Cases'. There are two search filters: 'Date Range' with a date picker showing '01/15/2026' to '07/15/2026', and 'Last Name(Leave empty to exclude)' with an empty text input field. A blue 'Search Cases' button is located below these filters. Below the search area, there is a table with columns: Patient, Doctor, Order, Status, Carrier, and Tracking Number. The table contains five rows of case data. Above the table, there is a 'Filter by case status' dropdown menu set to 'All' and a 'Search:' text input field. The table data is as follows:
